30. Nun merk ich erst, wie müd ich bin, da ich zur Ruh mich liegen

Wander hieß mich mancher hin auf un wirtba rem Wege

es war zu kalt zum Stehen, der Rücken fühlte

Obdach ich gefunden,

Werbeck singing is a holistic and human method that aims to liberate everyone's voice. This method was developed by Valborg Werbeck-Svärdström (1879-1972) in the early decades of the 20th century with the help and support of Rudolf Steiner. The teaching is provided by Christiaan Boele, a leading authority on Werbeck singing and considered a global reference for this method. The warmth, spontaneity and richness of his workshops nourish beginners and professional singers alike.
